Hepatitis B Failsafe Aims…

Robust failsafe system for all positive HBV sAg cases

All Practitioners offered support

All patients referred appropriately to specialist services

All partner notification/contact tracing issues are addressed
How it works...

Lab sends copies of positive HBV sAg results to SCSS

SCSS SHAs contact testing clinician to offer help and support

Flexible response dictated by testing service preferences and requirements

Ensuring adherence to local and national protocols, policies and guidelines
Audit Period 1st September 2012 – 31st December 2015
